

EXCHANGE STUDENTS

We believe that the insights into other peoples, nations and cultures which an exchange student can bring to our students is an invaluable experience. The Board encourages the efforts of civic groups to sponsor the exchange student program and will cooperate with groups interested in this type of program. Exchange students who may be enrolled in the Monroe County Public Schools shall be treated like all other regularly enrolled full-time students. They shall have the same responsibilities, opportunities and be subject to the same rules and regulations.

Exchange student, as herein used, is taken to mean a student from another state or from a foreign country.
